EXPERIENCE

JUNIOR SOFTWARE DEVELOPER   EsparkBiz
08/2024 - Present
- Developed and maintained scalable full-stack web applications using **Node.js**, **React.js**, and **PostgreSQL**.
- Debugged and troubleshooted software issues to ensure smooth functionality and improved application stability.
- Implemented **OAuth** authentication using **Supabase**, integrating login with Google, Microsoft, and Apple.
- Collaborated with cross-functional teams to deliver high-quality applications in an Agile environment.
- Tech stack: **Node.js, Express.js, React.js, PostgreSQL, TypeScript, Tailwindcss, Sequelize**
- Tools & Technologies: **Git, Supabase, Stripe, Coda**

SOFTWARE DEVELOPER INTERN   EsparkBiz
01/2024 - 08/2024
- Developed RESTful APIs and integrated them with front-end components using **Next.js** and **React.js**.
- Implemented **microservices architecture** to enhance application scalability and performance.
- Integrated third-party services like **Stripe** for payments and **Supabase** for authentication.
- Tech stack: **Next.js, Nest.js, React.js, Node.js, PostgreSQL, MySQL, Tailwindcss**
- Tools & Technologies: **Git, Supabase, Stripe**

PROJECT INTERN   Tatvasoft
07/2023 - 08/2023
- Developed a web application for buying and selling books with user authentication and admin functionalities.
- Implemented secure user authentication and authorization.
- Tech stack: **React.js, Node.js, MongoDB, CSS**

PROJECTS

MRENGINEERS | 2024 – Present
- Developed a comprehensive platform providing a one-stop solution for engineering students to master technologies.
- Platform features include roadmaps for skill development, study materials, quizzes, and additional interactive features.
- Currently live for demo purposes; ongoing development.
- Tech stack: **Next.js, Node.js, Express.js, Tailwind CSS, PostgreSQL, Prisma, Supabase**
- Link: **mrengineers.vecel.app.com**

CRICKET AUCTION WEB APP | 04/2023 – 05/2023
- Built an interactive cricket auction platform with player registration, bidding, and team management.
- Implemented real-time bidding features using **Socket.io**.
- Tech stack: **Node.js, Express, EJS, MongoDB, Socket.io, JavaScript, CSS**
- Link: **github.com/shailesh93602/gecsportify**

EDUCATION

B.E. IN INFORMATION TECHNOLOGY
2020 – 2024 | Gujarat, India
CGPA: 7.99 / 10

SKILLS

- **Programming Languages**: JavaScript, TypeScript, C/C++, Java
- **Frameworks & Libraries**: Node.js, Express.js, Nest.js, React.js, Next.js
- **Databases**: PostgreSQL, MySQL, MongoDB
- **ORMs**: Sequelize, TypeORM, Prisma
- **Version Control**: Git, GitHub
- HTML, CSS, Tailwindcss

ACHIEVEMENTS

- Institute Rank 1 at GeeksforGeeks
- Solved 700+ problems on CodeChef
- 5* in C++ on HackerRank
- Finalist in New India Vibrant Hackathon - 2023

- GitHub: **github.com/shailesh93602**
- LinkedIn: **linkedin.com/in/shaileshbhaichaudhari**
- Portfolio: **shaileshchaudhari.netlify.app**
- Coding Profiles: **CodeChef, GeeksforGeeks, LeetCode, HackerRank**

CERTIFICATIONS

NEW INDIA VIBRANT HACKATHON - 2023 FINALIST
Developed a web app using React and Node.js for smart city initiatives.
Gujarat Knowledge Society
Year: 2023

FRONT-END DEVELOPMENT COURSE   Johns Hopkins University (Coursera)
Year: 2022
